**To whom it may concern.**

We run an office stationery and printing business in Yatala Queensland. We had our warehouse coated with Insultec and noted an immediate difference in temperature in the whole area. To confirm the difference we had a temperature testing done on the underside of the roof. The outside temperature was measured at 33C. The under roof area of an uncoated section of the building measured 55.8C (the next adjoining warehouse), our coated area measured 38C – a difference of 17.8C. It is just unbelievable, we no longer have to wear wet scarves around our necks, it is now a very comfortable working environment, with much happier staff.

We have no hesitation in recommending this product.

Regards.

A handwritten signature in blue ink, appearing to read 'Greg and Robyn Bate', is written over a faint, dotted-line signature strip.

Greg and Robyn Bate.
